Was the MESA information you received in your home country clear? Was the description of your training site accurate? What more would you have liked MESA to send you before you left you home country?	I would have liked that table to guide me more about the weather, and the seasons of the training place.
If you worked with a Program Representative in your home country, was he/she helpful? Is there anything more the Representative could have done to help you complete your application or to better understand MESA's program?	James is really good representative.
Any problems with housing, electricity, heat, phone, driver's license, bank account, transportation? Other problems?	No problem, everything is fine.
Describe the training you have received since getting to your placement site. What have you learned so far? Have you attended any special training, workshops, conferences, classes, etc.?	Upon arrival we were trained on the tasks and work carried out on the farm, I was also trained in the use and management of agricultural tractors, and in CSA, community supports agriculture, externally we only attended a meeting of local farmers in Another farm.
Have you been involved in an cultural activities since your arrival? (examples : farmers' workshop, library event, soccer games, family activities, etc)	Yes, we often attended meetings of the farm, of friends who work in it, we also had group outings to the cinema, to the beach, to dinners, and other events organized by Clark farm.
Any suggestions to improve MESA's program?	I think it is an excellent program, I am very happy to be part of the program. If I can suggest something it would be to shorten the time to apply the program again, although I think that does not depend on the MESA, But it would be great.
