<b>Your Name</b>	Hollie Guyton
<b>Your E-mail Address</b>	hollie.g.guyton@gmail.com
<b>1. Learning Objectives #1</b>	Objective: Learn about why hedgerows are an important part of an organic farm Activity: Do research in my own time and take part in the planting of the hedgerows at Our Table
<b>2. Learning Objectives #2</b>	Objective: Learn about biodynamics and it's history Activity: Take part in the transformation of Our Table to a biodynamic farm, take part in the Biodynamic conference & Wintergreen biodynamics preps day, and research biodynamics in my own time. I will also try to visit biodynamic farms in Oregon & Washington and learn from experienced biodynamic farmers, and see what could be done at Our Table.
<b>3. Learning Objectives #3</b>	Objective: Learn to identify weeds and learn what they can tell me about the soil that they are growing in. Activity: Keep with me a weed identification book and keep records of weeds found in different areas of the farm.
<b>4. Learning Objectives #4</b>	Objective: Learn how community can enrich organic farming Activity: Take part in community events surrounding Our Table's farm and how a community/cooperative style of organisation can help grow and strengthen a farm. Also, research other farm communities and suggest and implement ideas for the Our Table farm community.
<b>5. Learning Objectives #5</b>	Objective: Learn about festivals and traditions in the US surrounding farming and what role they play in building a community around food. Activity: Take part in events and festivals at Our Table and other organic farms in Oregon & Washington.

**[Host Signature] I have reviewed these Learning Objectives with our Steward and agree to help him/her accomplish these objectives while training with our farm/business/organization.**
