Current Host Placement	Field To Fork
1. Learning Objectives #1	<p>- Objective: Learn about the costs that are required for the implementation of organic and fruit crops, referring to the cost-production relationship.</p> <p>-Activity:: to be able to directly observe the costs required by organic production per acre, investments in seed, organic fertilizers, irrigation system, biological controllers, tools and productivity or profit.</p>
2. Learning Objectives #2	<p>- Objective: Strengthen my skills in the formation of seedbeds and crops, thus improving my experience in this subject.</p> <p>-Activity: Continue carrying out germination activities in the seedbed, in order to gain more skill, in addition to knowing germination times.</p>

3. Learning Objectives #3	<p>- Objective: Learn about ecological alternatives to the use of pesticides, as biological controllers, mycorrhizae, among others, learning their use, their cost and their benefit, possibly to bring this market to Colombia.</p> <p>-Activity: have access to the costs of organic fertilizers that should be used, its name, its cost and its usefulness during production, plus I would like to know distributors and companies that are responsible for that.</p>
4. Learning Objectives #4	<p>- Objective: Learn about irrigation systems, their cost, their use, viability and duration.</p> <p>-Activity: observe the operation of irrigation systems, their cost, and their viability, then.</p>
5. Learning Objectives #5	<p>- Objective: -I would also like to learn about beekeeping, I have always been interested in that topic.</p> <p>-Activity: observe and implement techniques that benefit the arrival of pollinators.</p>
[Host Signature] I have reviewed these Learning Objectives with our Steward and agree to help him/her accomplish these objectives while training with our farm/business/organization.	Scott Washkowiak
