## About the Placement:

### Detailed Placement Description

We farm using some very advanced small scale techniques that are affordable and easy to use. We feel this can transfer to any culture and help others farm profitable. We have 10,000 square feet of greenhouses on our farm and have a highly productive market garden and orchards. We don't have animals on our farm and focus on high quality fruits and vegetables. We believe in being kind to the earth and have deep organic approach to our gardens. We feel we all are different and accept all ideas with a positive attitude. Our farm is very fast paced and can be stressful and we find having a good attitude makes the hard times go better.

**Primary Production :**

Bees/Honey, Flowers, Herbs, Tree fruits, Vegetables

---
